ABOUT ME

I was born to work in the VFX industry. Since I was a kid that has been my dream and day by day, I work hard to achieve it.

I consider myself a friendly person who values comradeship. I'm an entrepreneur and a perfectionist, grateful for a good work environment to make the most of it.

I love technology, I am passionate about cinema, advertising and design. I try to be up-to-date and find out about the novelties so that the level that the client demands can be achieved.
